

## Cindy's Jumpers Pizza Oven Rental Operating Instructions

### **INSTALLATION**

1. Place the unit in a prominent location on a level counter, where the pizza oven will attract attention.
2. Precaution should be taken so customers do not come in contact with the hot unit.
3. Plug the power cord into a suitable (20 amp) 120 volt outlet that can provide the required wattage. Having other appliances on a circuit, may prevent your unit from receiving the necessary voltage.

### **GENERAL OPERATING PROCEDURES**

1. Place the pizza or other baking items inside the oven and turn ON the timer to turn on the heating element.

#### **NOTE:**

When the timer is OFF the heating element is OFF.

### **COOKING**

1. Depending on size and frozen temperature of product.

### **CLEANING**

No Cleaning is required just empty all the excess food.
